

Capital Region Habitat for Humanity is dedicated to eliminating substandard housing through constructing, renovating and preserving homes. We advocate for fair and just housing policies and we provide training and access to resources that help families improve their shelter conditions. Habitat for Humanity was founded on the conviction that every man, woman and child should have a simple, durable place to live in dignity and safety. Decent shelter in decent communities should be a matter of conscience for all.

Why Habitat For Humanity Works

Homeowner Candidates:

- Undergo a rigorous selection process that identifies worthy candidates who are likely to succeed.
- Participate in financial skills training that prepares them for home ownership and improves their credit score.
- Provide sweat equity alongside other volunteers to help build shelter for themselves or others making them part of the Habitat Community.
- Pay an affordable mortgage that over time builds wealth and breaks the cycle of poverty.
- Habitat For Humanity offers an empowerment program not an entitlement program, providing a hand up, not a handout.
